

Ripio Frame Bag Sizing

Note: Dimensions shown are for the side panels only and should be taken as a **minimum** fit size. Many attachment points are along the perimeter panel and allow the size to expand if needed, this is most noticeable along bottom portion of the bag. Rule of thumb - size down if on the fence, it's better to have a tensioned fit, than a loose & sloppy fit!

Small
(51-53cm)

Large
(57-59 cm)

Medium
(55-57cm)

X-Large
(60+ cm)
